

Our Products

Whether you need to keep a jobsite clean or keep employees safe we have several products just for you. With our complete line of TireSocks™, Drip-Diapers™ and SafetyPads™, you're guaranteed to find just what you're looking for. All products come in variety of sizes to suit your needs.

TireSocks™ brand surface protection and safety products are carried by a variety of distributors. You can get much more information online at: www.TireSocks.com

TireSocks™

TireSocks are used to protect finished flooring from scuff marks caused by rubber tires. TireSocks are constructed using heavy duty fabrics and can be made to fit any size tire. TireSocks have several advantages over similar products currently on the market. They are easy to install, don't slip off the tires and self center as you drive. For an additional benefit, distributors may have their company logo screen printed on their TireSocks at no additional cost.

SafetyPads™

Our SafetyPads are used to protect the entry point on construction equipment. They are constructed with a 1/2" thick foam and are concealed with a heavy duty fabric printed with OSHA compliant yellow and black caution markings. They are more cost effective alternative to the typical 'pipe insulation and caution tape method' that is more time consuming, and less effective.

DripDiaper™

DripDiapers are used to protect finished flooring from fluid leaks caused by equipment. A replaceable absorptive pad in the center of each DripDiaper collects the fluids that may leak from the chassis of the equipment. This cost effective alternative to the typical plastic/duct tape method is more effective and saves you time and effort. With five customizable sizes to fit all types of equipment, DripDiapers should be a stock item in every parts department.

About TireSocks, Inc.

We're construction people, and we know that if don't have the right equipment you can't get the job done on time. That's why we created the TireSocks™ line of products with construction people in mind. Easy to Use. Durable and Dependable. We also know that a great product is nothing without great service, and we're proud to say we ship orders the same day EVERY DAY.
