

Our Products

TireSocks®

TireSocks are used to protect finished flooring from scuff marks caused by rubber tires as well as residue from non-marking tires. TireSocks are constructed using heavy-duty fabrics and can be made to fit any size tire.

SafetyPads®

SafetyPads protect the entry point of equipment. They're a cost-effective alternative to the typical caution tape method that is both time-consuming and less effective.

AerialJackets®

AerialJackets protect scissor lifts, control boxes and boom baskets from the elements, dust and debris. Constructed of heavy-duty, water-resistant material, our covers will keep your equipment looking great and protect your controls from damage.

DripDiapers®

DripDiapers are a cost-effective solution for protecting finished flooring from fluid leaks. A heavy-duty absorptive pad in the center of each DripDiaper collects fluid that may leak from the chassis of equipment.

AerialShields®

Aerialshields are a cost-effective solution designed to shield your equipment from overspray, spills and splatters. This product is ideal for painting and drywall projects.

CasterSocks®

CasterSocks offer a surface protection solution for the smaller wheels on dollies, carts, pallet jacks, hospital beds and other equipment.

ForkSocks®

ForkSocks can prevent punctures, scratches and marks on lightweight materials and products. Constructed of heavy-duty material with a double reinforced toe, ForkSocks are durable and attach securely.

TrackSocks®

TrackSocks are similar to TireSocks® but are used to protect finished flooring from scuff marks caused by rubber tracks. They are easy to install, durable and won't slip off the track.

FaceSocks™

FaceSocks are non-medical face protection ideal for the construction industry and everyday activities indoors, outdoors, and travel. They are constructed out of 2-Ply athletic fabric for maximum protection with a comfortable soft fit and velcro closure without painful ear loops.

Extras

Additional parts and components such as: DripDiaper pads, magnets, bungee assemblies and TireSocks brand t-shirts, hats and beanies.
